

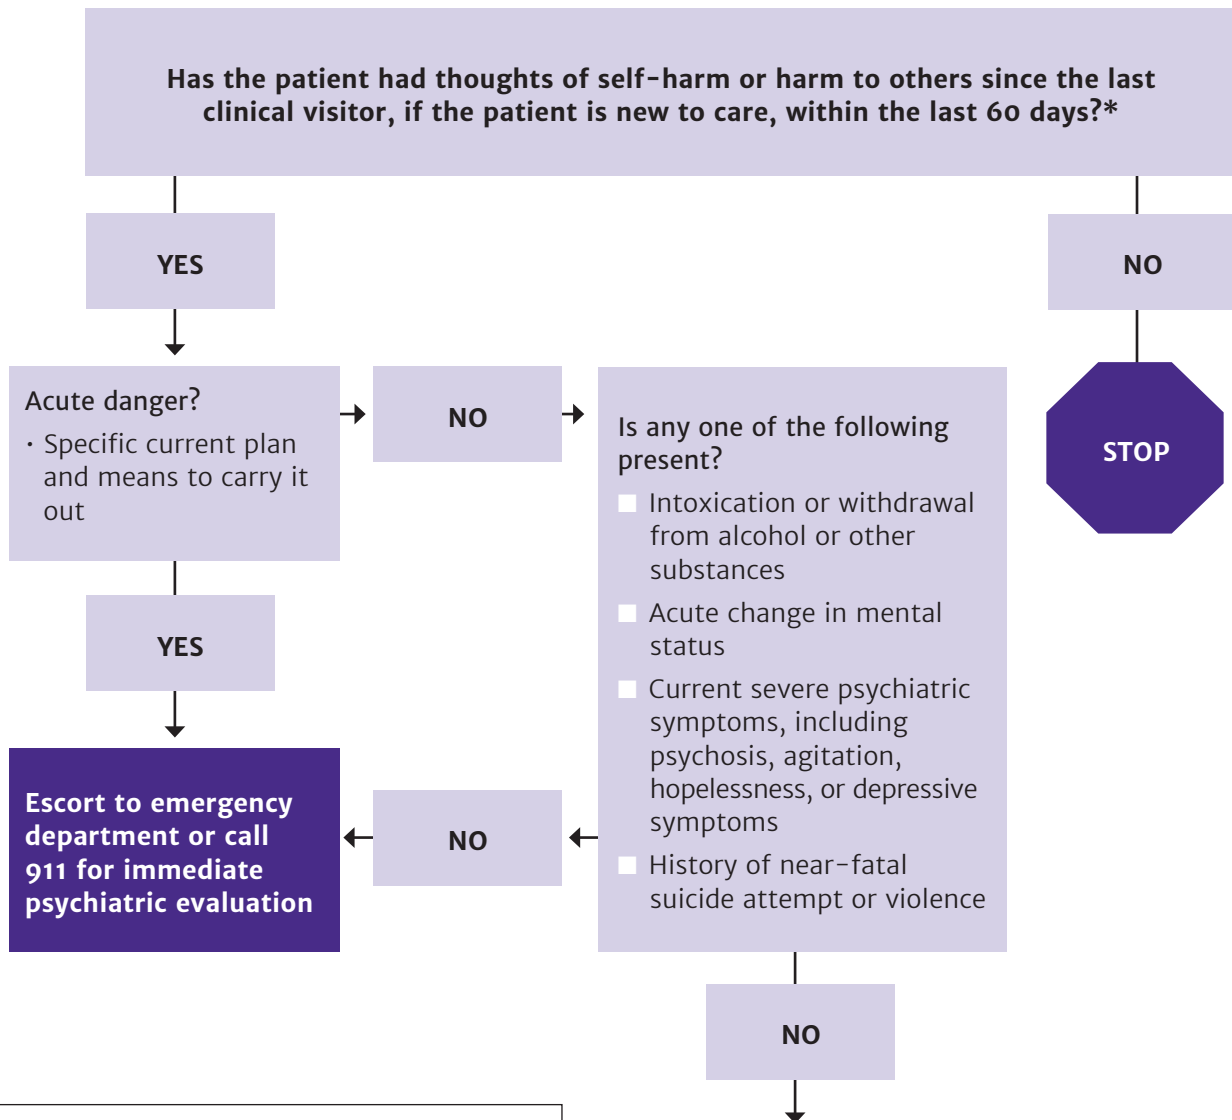

FIGURE 1. Screening for and Management of Acute Suicidal or Violent Ideation or Behavior

*The following questions may be used as part of an assessment for suicidal ideation and violent behavior:

■ **Questions for suicidal ideation^a:**

Since your last visit [or in the last 2 months]:

- Have you wished you were dead, or wished you could go to sleep and not wake up?
- Have you had actual thoughts of killing yourself?

■ **Questions for violent behavior:**

Since your last visit [or in the last 2 months]:

- Have you lost your temper to the point where you would hurt someone?
- Have you hit or slapped someone?
What about grabbing and shaking?
